2. Introduction

2.1 The Client named in the **Data Sheet** intends to select a Consultant from those listed in the Request for Proposals (RFP), in accordance with the method of selection specified in the **Data Sheet**.

2.2 The shortlisted Consultants are invited to submit a Technical Proposal and a Financial Proposal, or a Technical Proposal only, as specified in the **Data Sheet**, for consulting services required for the assignment named in the **Data Sheet**. The Proposal will be the basis for negotiating and ultimately signing the Contract with the selected Consultant.

2.3 The Consultants should familiarize themselves with the local conditions and take them into account in preparing

their Proposals, including attending a pre-proposal conference if one is specified in the **Data Sheet**. Attending any such pre-proposal conference is optional and is at the Consultants' expense.

2.4 The Client will timely provide, at no cost to the Consultants, the inputs, relevant project data, and reports required for the preparation of the Consultant's Proposal as specified in the **Data Sheet**.

3. Conflict of Interest

3.1 The Consultant is required to provide professional, objective, and impartial advice, at all times holding the Client's interests paramount, strictly avoiding conflicts with other assignments or its own corporate interests, and acting without any consideration for future work.

3.2 The Consultant has an obligation to disclose to the Client any situation of actual or potential conflict that impacts its capacity to serve the best interest of its Client. Failure to disclose such situations may lead to the disqualification of the Consultant or the termination of its Contract and/or sanctions by the Bank.

3.2.1 Without limitation on the generality of the foregoing, the Consultant shall not be hired under the circumstances set forth below:

a. Conflicting Activities

(i) Conflict between consulting activities and procurement of goods, works or non-consulting services: a firm that has been engaged by the Client to provide goods, works, or non-consulting services for a project, or any of its Affiliates, shall be disqualified from providing consulting services resulting from or directly related to those goods, works, or non-consulting services. Conversely, a firm hired to provide consulting services for the preparation or implementation of a project, or any of its Affiliates, shall be disqualified from subsequently providing goods or works or non-consulting services resulting from or directly related to the consulting services for such preparation or implementation.

b. Conflicting Assignments

(ii) Conflict among consulting assignments: a Consultant (including its Experts and Sub-consultants) or any of its Affiliates shall not be hired for any assignment that, by its nature, may be in conflict with another assignment of the Consultant for the same or for another Client.

c. Conflicting Relationships

(iii) Relationship with the Client's staff: a Consultant (including its Experts and Sub-consultants) that has a close business or family relationship with a professional staff of the Borrower (or of the Client, or of implementing agency, or of a recipient of a part of the Bank's financing) who are directly or indirectly involved in any part of (i) the preparation of the Terms of Reference for the assignment, (ii) the selection process for the Contract, or (iii) the supervision of the Contract, may not be awarded a Contract, unless the conflict stemming from this relationship has been resolved in a manner acceptable to the Bank throughout the selection process and the execution of the Contract.

4. Unfair Competitive Advantage

4.1 Fairness and transparency in the selection process require that the Consultants or their Affiliates competing for a specific assignment do not derive a competitive advantage from having provided consulting services related to the assignment in question. To that end, the Client shall indicate in the **Data Sheet** and make available to all shortlisted Consultants together with this RFP all information that would in that respect give such Consultant any unfair competitive advantage over competing Consultants.

5. Fraud and Corruption

5.1 The Bank requires compliance with the Bank's Anti-Corruption Guidelines and its prevailing sanctions policies and procedures as set forth in the WBG's Sanctions Framework, as set forth in Section 6.

5.2 In further pursuance of this policy, Consultants shall permit and shall cause their agents (where declared or not), subcontractors, subconsultants, service providers, suppliers, and personnel, to permit the Bank to inspect all accounts, records and other documents relating to any shortlisting process, Proposal submission, and contract performance (in the case of award), and to have them audited by auditors appointed by the Bank.

6. Eligibility

6.1 The Bank permits consultants (individuals and firms, including Joint Ventures and their individual members) from all countries to offer consulting services for Bank-financed projects.

6.2 Furthermore, it is the Consultant's responsibility to ensure that its Experts, joint venture members, Sub-consultants, agents (declared or not), sub-contractors, service providers,

suppliers and/or their employees meet the eligibility requirements as established by the Bank in the applicable Procurement Regulations.

6.3 As an exception to the foregoing ITC 6.1 and ITC 6.2 above:

a. Sanctions

6.3.1 A Consultant that has been sanctioned by the Bank, pursuant to the Bank's Anti-Corruption Guidelines and in accordance with its prevailing sanctions policies and procedures as set forth in the WBG's Sanctions Framework as described in Section VI, Fraud and Corruption, paragraph 2.2 d., shall be ineligible to be shortlisted for, submit proposals for, or be awarded a Bank-financed contract or benefit from a Bank-financed contract, financially or otherwise, during such period of time as the Bank shall have determined. The list of debarred firms and individuals is available at the electronic address specified **in the PDS**.

b. Prohibitions

6.3.2 Firms and individuals of a country or goods manufactured in a country may be ineligible if so indicated in Section 5 (Eligible Countries) and:

(a) as a matter of law or official regulations, the Borrower's country prohibits commercial relations with that country, provided that the Bank is satisfied that such exclusion does not preclude effective competition for the provision of Services required; or

(b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Borrower's Country prohibits any import of goods from that country or any payments to any country, person, or entity in that country.

c. Restrictions for State-Owned Enterprises

6.3.3 State-owned enterprises or institutions in the Borrower's country may be eligible to compete and be awarded a contract only if they can establish, in a manner acceptable to the Bank, that they: (i) are legally and financially autonomous, (ii) operate under commercial law, and (iii) are not under supervision of the Client.

d. Restrictions for Public Employees

6.3.4 Government officials and civil servants of the Borrower's country are not eligible to be included as Experts, individuals, or members of a team of Experts in the Consultant's Proposal unless:

(i) the services of the government official or civil servant are of a unique and exceptional nature, or their participation is critical to project implementation; and

(ii) their hiring would not create a conflict of interest, including any conflict with employment or other laws, regulations, or policies of the Borrower.

e. Borrower Debarment

6.3.5 A firm that is under a sanction of debarment by the Borrower from being awarded a contract is eligible to participate in this procurement, unless the Bank, at the Borrower's request, is satisfied that the debarment; (a) relates to fraud or corruption, and (b) followed a judicial or administrative proceeding that afforded the firm adequate due process.

B. Preparation of Proposals

7. General Considerations

7.1 In preparing the Proposal, the Consultant is expected to examine the RFP in detail. Material deficiencies in providing the information requested in the RFP may result in rejection of the Proposal.

8. Cost of Preparation of Proposal

8.1 The Consultant shall bear all costs associated with the preparation and submission of its Proposal, and the Client shall not be responsible or liable for those costs, regardless of the conduct or outcome of the selection process. The Client is not bound to accept any proposal, and reserves the right to annul the selection process at any time prior to Contract award, without thereby incurring any liability to the Consultant.

9. Language

9.1 The Proposal, as well as all correspondence and documents relating to the Proposal exchanged between the Consultant and the Client, shall be written in the language(s) specified in the **Data Sheet**.

10. Documents Comprising the Proposal

10.1 The Proposal shall comprise the documents and forms listed in the **Data Sheet**.

Official Use Only

10.2 If specified in the **Data Sheet**, the Consultant shall include a statement of an undertaking of the Consultant to observe, in competing for and executing a contract, the Client country's laws against fraud and corruption (including bribery).

10.3 The Consultant shall furnish information on commissions, gratuities, and fees, if any, paid or to be paid to agents or any other party relating to this Proposal and, if awarded, Contract execution, as requested in the Financial Proposal submission form (Section 4).

11. Only One Proposal

11.1 The Consultant (including the individual members of any Joint Venture) shall submit only one Proposal, either in its own name or as part of a Joint Venture in another Proposal. If a Consultant, including any Joint Venture member, submits or participates in more than one proposal, all such proposals shall be disqualified and rejected. This does not, however, preclude a Sub-consultant, or the Consultant's staff from participating as Key Experts and Non-Key Experts in more than one Proposal when circumstances justify and if stated in the **Data Sheet**.

12. Proposal Validity

12.1 Proposals shall remain valid until the date specified **in the Data Sheet** or any extended date if amended by the Client in accordance with ITC 13.1.1.

12.2 During this period, the Consultant shall maintain its original Proposal without any change, including the availability of the Key Experts, the proposed rates and the total price.

12.3 If it is established that any Key Expert nominated in the Consultant's Proposal was not available at the time of Proposal submission or was included in the Proposal without his/her confirmation, such Proposal shall be disqualified and rejected for further evaluation, and may be subject to sanctions in accordance with ITC 5.

a. Extension of Proposal Validity

12.4 The Client will make its best effort to complete the negotiations and award the contract prior to the date of expiry of the Proposal validity. However, should the need arise, the Client may request, in writing, all Consultants who submitted Proposals prior to the submission deadline to extend the Proposals' validity.

12.5 If the Consultant agrees to extend the validity of its Proposal, it shall be done without any change in the original

Proposal and with the confirmation of the availability of the Key Experts, except as provided in ITC 12.7.

12.6 The Consultant has the right to refuse to extend the validity of its Proposal in which case such Proposal will not be further evaluated.

b. Substitution of Key Experts at Validity Extension

12.7 If any of the Key Experts become unavailable for the extended validity period, the Consultant shall seek to substitute another Key Expert. The Consultant shall provide a written adequate justification and evidence satisfactory to the Client together with the substitution request. In such case, a substitute Key Expert shall have equal or better qualifications and experience than those of the originally proposed Key Expert. The technical evaluation score, however, will remain to be based on the evaluation of the CV of the original Key Expert.

12.8 If the Consultant fails to provide a substitute Key Expert with equal or better qualifications, or if the provided reasons for the replacement or justification are unacceptable to the Client, such Proposal will be rejected.

c. Sub-Contracting

12.9 The Consultant shall not subcontract the whole of the Services.

13. Clarification and Amendment of RFP

13.1 The Consultant may request a clarification of any part of the RFP during the period indicated in the **Data Sheet** before the Proposals' submission deadline. Any request for clarification must be sent in writing, or by standard electronic means, to the Client's address indicated in the **Data Sheet**. The Client will respond in writing, or by standard electronic means, and will send written copies of the response (including an explanation of the query but without identifying its source) to all shortlisted Consultants. Should the Client deem it necessary to amend the RFP as a result of a clarification, it shall do so following the procedure described below:

13.1.1 At any time before the proposal submission deadline, the Client may amend the RFP by issuing an amendment in writing or by standard electronic means. The amendment shall be sent to all shortlisted Consultants and will be binding on them. The shortlisted Consultants shall acknowledge receipt of all amendments in writing.

13.1.2 If the amendment is substantial, the Client may extend the proposal submission deadline to give

the shortlisted Consultants reasonable time to take an amendment into account in their Proposals.

13.2 The Consultant may submit a modified Proposal or a modification to any part of it at any time prior to the proposal submission deadline. No modifications to the Technical or Financial Proposal shall be accepted after the deadline.

14. Preparation of Proposals Specific Considerations

14.1 While preparing the Proposal, the Consultant must give particular attention to the following:

14.1.1 If a shortlisted Consultant considers that it may enhance its expertise for the assignment by associating with other consultants in the form of a Joint Venture or as Sub-consultants, it may do so with either (a) non-shortlisted Consultant(s), or (b) shortlisted Consultants if permitted in the **Data Sheet**. In all such cases a shortlisted Consultant must obtain the written approval of the Client prior to the submission of the Proposal. When associating with non-shortlisted firms in the form of a joint venture or a sub-consultancy, the shortlisted Consultant shall be a lead member. If shortlisted Consultants associate with each other, any of them can be a lead member.

14.1.2 The Client may indicate in the **Data Sheet** the estimated Key Experts' time input (expressed in person-month) or the Client's estimated total cost of the assignment, but not both. This estimate is indicative and the Proposal shall be based on the Consultant's own estimates for the same.

14.1.3 If stated in the **Data Sheet**, the Consultant shall include in its Proposal at least the same time input (in the same unit as indicated in the **Data Sheet**) of Key Experts, failing which the Financial Proposal will be adjusted for the purpose of comparison of proposals and decision for award in accordance with the procedure in the **Data Sheet**.

14.1.4 For assignments under the Fixed-Budget selection method, the estimated Key Experts' time input is not disclosed. Total available budget, with an indication whether it is inclusive or exclusive of taxes, is given in the **Data Sheet**, and the Financial Proposal shall not exceed this budget.

Official Use Only

15. Technical Proposal Format and Content

15.1 The Technical Proposal shall be prepared using the Standard Forms provided in Section 3 of the RFP and shall comprise the documents listed in the **Data Sheet.** The Technical Proposal shall not include any financial information. A Technical Proposal containing material financial information shall be declared non-responsive.

15.1.1 Consultant shall not propose alternative Key Experts. Only one CV shall be submitted for each Key Expert position. Failure to comply with this requirement will make the Proposal non-responsive.

15.2 Depending on the nature of the assignment, the Consultant is required to submit a Full Technical Proposal (FTP), or a Simplified Technical Proposal (STP) as indicated in the **Data Sheet** and using the Standard Forms provided in Section 3 of the RFP.

16. Financial Proposal

16.1 The Financial Proposal shall be prepared using the Standard Forms provided in Section 4 of the RFP. It shall list all costs associated with the assignment, including (a) remuneration for Key Experts and Non-Key Experts, (b) reimbursable expenses indicated in the **Data Sheet**.

a. Price Adjustment

16.2 For assignments with a duration exceeding 18 months, a price adjustment provision for foreign and/or local inflation for remuneration rates applies if so stated in the **Data Sheet**.

b. Taxes

16.3 The Consultant and its Sub-consultants and Experts are responsible for meeting all tax liabilities arising out of the Contract unless stated otherwise in the **Data Sheet**. Information on taxes in the Client's country is provided in the **Data Sheet**.

c. Currency of Proposal

16.4 The Consultant may express the price for its Services in the currency or currencies as stated in the **Data Sheet**. If indicated in the **Data Sheet**, the portion of the price representing local cost shall be stated in the national currency.

d. Currency of Payment

16.5 Payment under the Contract shall be made in the currency or currencies in which the payment is requested in the Proposal.

Official Use Only

C. Submission, Opening and Evaluation

In case of discrepancy between (i) a partial amount (sub-total) and the total amount, or (ii) between the amount derived by multiplication of unit price with quantity and the total price, or (iii) between words and figures, the former will prevail. In case of discrepancy between the Technical and Financial Proposals in indicating quantities of input, the Technical Proposal prevails and the Client's evaluation committee shall correct the quantification indicated in the Financial Proposal so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity, and correct the total Proposal cost.

b. Lump-Sum Contracts

24.1.2 If a Lump-Sum contract form is included in the RFP, the Consultant is deemed to have included all prices in the Financial Proposal, so neither arithmetical corrections nor price adjustments shall be made. The total price, net of taxes understood as per ITC 25, specified in the Financial Proposal (Form FIN-1) shall be considered as the offered price. Where there is a discrepancy between the amount in words and the amount figures, the amount in words shall prevail.

25. Taxes

27. Combined Quality and Cost Evaluation

a. Quality and Cost-Based Selection (QCBS)

27.1 In the case of QCBS, the total score is calculated by weighting the technical and financial scores and adding them as per the formula and instructions in the **Data Sheet**. The Consultant with the Most Advantageous Proposal, which is the Proposal that achieves the highest combined technical and financial scores, will be invited for negotiations.

b. Fixed-Budget Selection (FBS)

27.2 In the case of FBS, those Proposals that exceed the budget indicated in ITC 14.1.4 of the **Data Sheet** shall be rejected.

27.3 The Client will select the Consultant with the Most Advantageous Proposal, which is the highest-ranked Technical Proposal that does not exceed the budget indicated in the RFP, and invite such Consultant to negotiate the Contract.

c. Least-Cost Selection

27.4 In the case of Least-Cost Selection (LCS), the Client will select the Consultant with the Most Advantageous Proposal, which is the Proposal with the lowest evaluated total price among those Proposals that achieved the minimum qualifying technical score, and invite such a Consultant to negotiate the Contract.

These discussions shall not substantially alter the original scope of services under the TOR or the terms of the contract, lest the quality of the final product, its price, or the relevance of the initial evaluation be affected.

c. Financial Negotiations

28.6 The negotiations include the clarification of the Consultant's tax liability in the Client's country and how it should be reflected in the Contract.

28.7 If the selection method included cost as a factor in the evaluation, the total price stated in the Financial Proposal for a Lump-Sum contract shall not be negotiated.

28.8 In the case of a Time-Based contract, unit rates negotiations shall not take place, except when the offered Key Experts and Non-Key Experts' remuneration rates are much higher than the typically charged rates by consultants in similar contracts. In such case, the Client may ask for clarifications and, if the fees are very high, ask to change the rates after consultation with the Bank. The format for (i) providing information on remuneration rates in the case of Quality Based Selection; and (ii) clarifying remuneration rates' structure under this Clause, is provided in Appendix A to the Financial Form FIN-3: Financial Negotiations – Breakdown of Remuneration Rates.

If disagreement persists, the Client shall terminate the negotiations informing the Consultant of the reasons for doing so. The Client will then invite the next-ranked Consultant to negotiate a Contract. Once the Client commences negotiations with the next-ranked Consultant, the Client shall not reopen the earlier negotiations.

The Client shall provide a debriefing to all unsuccessful Consultants whose request is received within this deadline.

33.2 Where a request for debriefing is received within the deadline, the Client shall provide a debriefing within five (5) Business Days, unless the Client decides, for justifiable reasons, to provide the debriefing outside this timeframe. In that case, the standstill period shall automatically be extended until five (5) Business Days after such debriefing is provided. If more than one debriefing is so delayed, the standstill period shall not end earlier than five (5) Business Days after the last debriefing takes place. The Client shall promptly inform, by the quickest means available, all Consultants of the extended standstill period.

Appendix A. Financial Negotiations - Breakdown of Remuneration Rates

1. Review of Remuneration Rates

1.1. The remuneration rates are made up of salary or a base fee, social costs, overheads, profit, and any premium or allowance that may be paid for assignments away from headquarters or a home office. An attached Sample Form can be used to provide a breakdown of rates.

1.2. If the RFP requests submission of a technical proposal only, the Sample Form is used by the selected Consultant to prepare for the negotiations of the Contract. If the RFP requests submission of the financial proposal, the Sample Form shall be completed and attached to the Financial Form-3. Agreed (at the negotiations) breakdown sheets shall form part of the negotiated Contract and included in its Appendix D or C.

1.3. At the negotiations the firm shall be prepared to disclose its audited financial statements for the last three years, to substantiate its rates, and accept that its proposed rates and other financial matters are subject to scrutiny. The Client is charged with the custody of government funds and is expected to exercise prudence in the expenditure of these funds.

1.4. Rate details are discussed below:

(i) Salary is the gross regular cash salary or fee paid to the individual in the firm's home office. It shall not contain any premium for work away from headquarters or bonus (except where these are included by law or government regulations).

(ii) Bonuses are normally paid out of profits. To avoid double counting, any bonuses shall not normally be included in the "Salary" and should be shown separately. Where the Consultant's accounting system is such that the percentages of social costs and overheads are based on total revenue, including bonuses, those percentages shall be adjusted downward accordingly. Where national policy requires that 13 months' pay be given for 12 months' work, the profit element need not be adjusted downward. Any discussions on bonuses shall be supported by audited documentation, which shall be treated as confidential.

(iii) Social Charges are the costs of non-monetary benefits and may include, inter alia, social security (including pension, medical, and life insurance costs) and the cost of a paid sick and/or annual leave. In this regard, a paid leave during public holidays or an annual leave taken during an assignment if no Expert's replacement has been provided is not considered social charges.

(iv) Cost of Leave. The principles of calculating the cost of total days leave per annum as a percentage of basic salary is normally calculated as follows:

$$\text{Leave cost as percentage of salary} = \frac{\text{total days leave x } 100}{[365 - w - ph - v - s]}$$

Where w = weekends, ph = public holidays, v = vacation, and s = sick leave.

Please note that leave can be considered as a social cost only if the Client is not charged for the leave taken.

(v) Overheads are the Consultant's business costs that are not directly related to the execution of the assignment and shall not be reimbursed as separate items under the Contract. Typical items are home office costs (non-billable time, time of senior Consultant's staff monitoring the project, rent of headquarters' office, support staff, research, staff training, marketing, etc.), the cost of Consultant's personnel not currently employed on revenue-earning projects, taxes on business activities, and business promotion costs. During negotiations, audited financial statements, certified as correct by an independent auditor and supporting the last three years' overheads, shall be available for discussion, together with detailed lists of items making up the overheads and the percentage by which each relates to basic salary. The Client does not accept an add-on margin for social charges, overhead expenses, etc. for Experts who are not permanent employees of the Consultant. In such case, the Consultant shall be entitled only to administrative costs and a fee on the monthly payments charged for sub-contracted Experts.

(vi) Profit is normally based on the sum of the Salary, Social costs, and Overheads. If any bonuses paid on a regular basis are listed, a corresponding reduction shall be made in the profit amount. Profit shall not be allowed on travel or any other reimbursable expenses.

(vii) Away from Home Office Allowance or Premium or Subsistence Allowances. Some Consultants pay allowances to Experts working away from headquarters or outside of the home office. Such allowances are calculated as a percentage of salary (or a fee) and shall not draw overheads or profit. Sometimes, by law, such allowances may draw social costs. In this case, the amount of this social cost shall still be shown under social costs, with the net allowance shown separately.

UNDP standard rates for the particular country may be used as reference to determine subsistence allowances.

(c) the away- from- home office allowances indicated below are those that the Consultant has agreed to pay for this assignment to the Experts listed;

(d) the factors listed in the attached table for social charges and overhead are based on the firm's average cost experiences for the latest three years as represented by the firm's financial statements; and

For
Monitoring & Evaluation (M&E) Consultants

Flood Management of Kachhi Plains
Balochistan Water Security and Productivity Improvement Project

1. Introduction

The Government of Balochistan (GoB) has obtained a credit (No. 7790-PAK) from the World Bank (WB) for the implementation of the Balochistan Water Security and Productivity Improvement Project (BWSPIP). The BWSPIP will be implemented by the GoB through its Irrigation Department with support from other government departments and getting services of various consultants. A full description of the project is available in the Project Appraisal Document (PAD) at https://documents1.worldbank.org/curated/en/099051225163528707/pdf/BOSIB-d5f825d8-fa60-461f-b51f-0994a030c196.pdf.

Balochistan, the largest province of Pakistan by area, faces persistent challenges related to water scarcity, climate variability, recurrent flooding, land degradation, and limited institutional capacity for effective water resources management. Frequent seasonal floods, particularly in the Kachhi Plains, cause extensive damage to agricultural land, infrastructure, and livelihoods, and also to the canal system, which is the backbone of agricultural productivity in the related area. Inadequate floodwater retention and utilization mechanisms result in the loss of valuable water resources that can otherwise be useful for agriculture and rural development.

To address these challenges, the Government of the Islamic Republic of Pakistan, through the GoB, with the financial support from the International Development Agency (IDA), is implementing the **BWSPIP**. The project aims to enhance water security, strengthen flood resilience, improve agricultural productivity, and reinforce institutional systems for sustainable and climate-resilient water resources management across selected river basins and flood-prone areas of the province.

The **Flood Management of Kachhi Plains Project (FMKP)** is a major sub-project under BWSPIP, focusing on both structural and non-structural flood management interventions, including spate irrigation, flood protection and conveyance infrastructure, floodwater harvesting and retention, watershed and catchment restoration, and community-based flood risk management measures. The Project Management Unit (PMU), supported by Project Implementation Units (PIUs), is responsible for the overall implementation and coordination of FMKP activities. In line with the WB's results-based management approach and the Environmental and Social Framework (ESF) 2018, the project requires a comprehensive E&S system. The Environmental and Social Safeguard Specialists of the BWSPIP will play a critical role in ensuring compliance with national environmental regulations and international standards (e.g., World Bank Environmental and Social Standards).

The Project intends to hire Monitoring and Evaluation Consultant for about 40 months, to provide the services described in these Terms of Reference (ToRs).

2. Project Development Objective (PDO)

The overall Project Development Objective (PDO) along with full description of the project is available in the Project Appraisal Document (PAD) at:
https://documents1.worldbank.org/curated/en/099051225163528707/pdf/BOSIB-d5f825d8-fa60-461f-b51f-0994a030c196.pdf.
Bidders are requested to familiarize themselves with the project design, scope, and implementation arrangements.

3. The Project Area

The project area under this component covers the three river basins of Nari, Talli, and Lehri across the Kachhi plains. The northern boundary of the Project area comprises the Marri-Bugti hills, whereas the southern limit is the proposed alignment for Package-02 & 03 of the Kachhi canal. The project area is spread across the Districts Kachhi, Sibi and Jhal Magsi.

4. Objectives of the Assignment

The objective of this consultancy assignment will be “to carry out effective result-based monitoring and evaluation of the project and indicate design adjustments and policy refinements based on the evaluated results”.

The specific objectives of the assignment shall include preparation of a results framework and monitoring and evaluation system specific to the project after considering the established benchmark indicators in view of the baseline study.

5. Key Activities: The key tasks under this assignment include:

i)

Task 1 - Create of a Comprehensive Monitoring and Evaluation Framework

Consultants are required to design an overall Monitoring and Evaluation Framework for the project, which should consider the given outcome indicators for monitoring Project Development Objectives (PDOs), Intermediate Results Indicators (IRIs) for all project components, and tentative baseline conditions for each indicator, year-wise achievement of targets against each outcome/output indicator. These indicators are described in the PAD under “Results Framework and Monitoring”. This Framework would be used as a base document for the development of project specific M&E framework, if necessary, by adjusting and fine-tuning the indicators and targets. Client will facilitate stakeholders consultations

The M&E framework should also include indicators to monitor and evaluate project-specific operational risks and risk mitigation measures. The major objective of this dimension of monitoring is to ensure governance aspects of the project and minimize risks of misappropriation of project resources. Although the PAD identifies potential governance risks and issues together with suggested measures and implementation arrangements to minimize those risks, more operational indicators need to be developed along with methodologies for on-ground monitoring and compliance with the proposed broader remedial measures. The Consultants are expected to develop, establish, and monitor a sound and transparent system of record-keeping at the community level, related to the transfer and delivery of capital assets and consumable items and related financial transactions, especially for major infrastructure projects, OFWM, and Rangeland Management interventions proposed under the Project. The Consultants are expected to present the final M&E framework as one of the main outputs in their Inception Report.

Task 2: Develop Baselines for the PDO and Intermediate Results Indicators

The Consultants are responsible for determining or confirming the baselines for all indicators defined in the Results Framework at the onset of the consultancy. Consultants are required to design a baseline study for the project in consultation with the Cient and complete the survey before the start of project interventions, specifically those associated with Component A, including A1, A2, and A3 activities.

In addition, the M&E Consultants are expected to closely coordinate with the Community Support Group, established by the Engineering Design and Supervision Consultants, in establishing the baseline status of villages where specific project interventions are planned under the BWSPIP. Baseline status should also be established to measure the improvements in design standards, durability, utility, and resilience of the rehabilitated and newly constructed infrastructures under the Project. The Consultants are expected to start the baseline surveys and establish the baseline status immediately after the mobilizations and present the methodology for and progress of compiling baseline status for each indicator as one of the outputs of the Inception Report. Consultants are expected to suggest their proposed methodology for baseline surveys in their proposal to the Client, which will be used as one of the criteria for proposal evaluation.

Official Use Only

Task 3: Track PDO and Intermediate Results Indicators

Consultants are expected to develop appropriate tools and analytical procedures to track and monitor project inputs, measure outputs, and determine outcomes resulting from the execution of project interventions throughout the project implementation period. Consultants are required to present their methodology for the proposed M&E Model for the BWSPIP.

Task 4: Carry out Project Process Monitoring

Consultants are expected to carry out process monitoring of the sub-projects being executed by the FOs and WUAs, using specialized techniques and tools. The process monitoring in respect of participatory-based project implementation is very important because the project implementation is designed on the principles of a community-based approach across all phases: from need identification, targeting and selecting beneficiaries; developing infrastructure; and recovering costs and monitoring the inputs. The Consultants will design, establish, and carry out a sound process monitoring system for this purpose. The Consultants are expected to submit evaluation reports to this effect, enabling the PMU to make appropriate and timely decisions in respect of the sub-projects.

Task 5: Develop a User-Friendly, Interactive, Web-based Project Monitoring Information System

A special geo-referencing tool that provides all information on the planned and ongoing activities would provide a useful tool to the Project Steering Committee, ID, and overall Client structures. At the same time, it would serve as a useful tool to monitor project-specific interventions. This system should be interactive and user-friendly to allow collation of inputs from various implementing agencies; produce standard reports; enable troubleshooting, tracking delays and identifying shortfalls in progress against physical and financial targets; allow specialized queries to track all aspects of project progress (including physical and financial progress and project impacts) at any time. The Consultants are expected to orient and guide the Project's staff responsible for M&E of project activities.

Task 6: Recommend Appropriate Corrective Actions

Consultants are expected to play a continuing role in analyzing the findings and results of M&E and make recommendations to the Client to be able to take timely corrective actions to steer implementation strategies and refine practices. The Consultant will provide regular feedback to all implementing partners to ensure and maintain satisfactory implementation progress against the set targets and work plans. Based on the evaluations of the monitoring results, they will recommend necessary changes in the project scope, interventions, and implementation processes, etc., to ensure timely and satisfactory achievement of the expected outcomes of all project components and the overall development objectives of the project.

Task 7: Quarterly and Annual Monitoring and Progress Reports

The Consultant will develop appropriate reporting formats in consultation with the Client and guide and provide training to the officials and staff of the implementing agencies for the timely preparation of the quarterly and annual work plans, budgets, and progress reports. In addition, the Consultant will provide reporting to the Client on project status and lessons learned during implementation (including data, analysis, surveys, interviews, photographs, description, and easy-to-read visuals) to enable better adaptive management. The M&E

Consultants will report separately about their observations and suggestions for improvement during project implementation.

Task 8: Monitor and Evaluate the Resettlement Action Plan

The consultants will be responsible for Monitoring and Evaluation of the Resettlement Action Plan (RAP) under the project for compensation of the affected people, as and when required. They will be required to monitor all aspects of the RAP implementation process including compensation criterion and mode of payment, in-kind assistance to local communities, consultations with communities, and grievance redress mechanism established under the RAP. The specific monitoring tasks under RAP monitoring shall include but not limited to:

- People's participation in preparing and implementing the Land Acquisition Plan.
- Activities of implementing agency and other governmental (administrative) departments in determining and implementing eligibility and entitlements under RAP.
- Effectiveness of Grievance Redress Committee (GRC) and the relevance of the participatory approach suggested in GRC.
- Monitoring activities of the touts and elites and their followers in the process of land acquisition and resettlement program
- Monitor effectiveness of the training program workers/officials for land acquisition and resettlement program.
- Evaluate proposed Market Price of different types (agricultural, homestead, ponds etc.) of land in the year before the acquisition, in the year of acquisition and also in the year of the survey.

Task 9: Monitoring of Environmental and Social Safeguards Implementation

The consultant will monitor the implementation of the Environmental Management Plan (EMP) prepared for the entire project and the Site – specific EMPs and SIAMPs which shall be prepared for individual sub-projects during the course of implementation of the project by PSIA and PMU.

Task 10: Adaptation of Monitoring Tools

The M&E Consultant shall support the Project Implementation Unit in strengthening its monitoring framework by adopting geo-enabled monitoring tools such as KOBO Toolbox for digital data collection and real-time tracking. The assignment will include designing and deploying mobile-based data collection forms with integrated GPS coordinates, time stamping, and photo documentation to ensure transparency, accuracy, and field-level verification of project activities. The consultant will also establish data validation protocols, build staff capacity for effective use of the system, and facilitate the generation of geo-referenced reports and dashboards to enhance evidence-based decision-making and overall project oversight

Task 11: Project Completion Report (PCR)

The M&E consultant will prepare annual Project work plans and budgets, and periodic updating of the Project Operations Manual; it will also include monthly and quarterly reporting, as well as preparation of Mid-Term and Project Completion reports (as per World

Bank requirements) and the "PC-IV" report of the project for submission to the Government of Pakistan upon Project completion.

Your complaint must be submitted within the Standstill Period and received by us before the Standstill Period ends.

Further information:

For more information see the "Procurement Regulations for IPF Borrowers (Procurement Regulations) (Annex III)." You should read these provisions before preparing and submitting your complaint. In summary, there are four essential requirements:

1. You must be an 'interested party'. In this case, that means a Consultant who has submitted a Proposal in this selection process, and is the recipient of a Notification of Intention to Award.
2. The complaint can only challenge the decision to award the contract.
3. You must submit the complaint within the deadline stated above.
